

**Swati Singh**  
**Assistant Professor - Design**

**"Gems are the flowers of the mineral kingdom and the fancy coloured diamonds are the orchids."  
- Richard Liddicoat**

Swati Singh is a skilled Fashion and Lifestyle Accessories Instructor and a Graduate Gemologist (GG) from GIA, New York. Her interest in gemstones and jewellery grew even more during her studies at NIFT Gandhinagar where she pursued her B.Des degree in Lifestyle Accessories. Swati is currently working as a Freelance Faculty for various subjects pertaining to Fashion and Jewellery Products. She has also worked as a jewellery designer for various fashion brands such as P.C. Jewellers and Derewala Jewellery Industries Ltd, Jaipur for international markets such as USA, Germany and France. After two years of handling jewellery domain responsibilities as an HOD at Times and Trends Academy, Swati started teaching various subjects and sharing her knowledge of design and gemmology with students on a freelance basis. The hands-on experience of holding and testing gems at GIA was one of the best experiences for Swati in the industry, and she feels confident in identifying gems correctly using gemological instruments. Apart from teaching design, Swati also paints and teaches realism in watercolors in her free time through her channel and website. With her expertise in gemmology and design, Swati is a trusted name in the industry.
